eMaint Boot Camp Training

REPORT CREATION & DASHBOARD DESIGN

Agenda is subject to change.

Dav	٦

8:00am - 8:30am Introduction - Agenda Review Introduction to Reporting Interface In the beginning of this session you will be presented with all the report titles and dashboard tabs that will be created during this Boot Camp. Then you will be presented with an overview of the reporting module and the key features that allow creation of basic reports. You will learn how to report on data from one or more tables. 9:30am - 10:00am Hands-On Training These exercises will provide you with the opportunity to create reports that will be included in one of the dashboard tabs you will create in the next hands-on session. 10:00am - 10:15am Break Introduction to Dashboards In this session you will learn how to create dashboard tabs and how you can display different types of reports on these tabs. You will also learn how to take advantage of the following dashboard widgets: The Sign-on Sign-off Wizard and the HTML Editor. 10:45am - 11:15am Hands-On Training In this exercise you will create all dashboard tabs needed for this Boot Camp. You will then add the reports created during the last exercise and will get familiar with all dashboard widgets. 11:15am - 12:00pm Report Filters In this session you will learn how to set up report filters and how to use the following filtering features: Filter operators, Date Range, Grouped filters, Filter expressions, "Ask at runtime" feature, etc. 12:00pm - 1:30pm Hands-On Training In these exercises you will have the opportunity to create useful reports using date expressions such as: Records from Current Month, Records from Last Month, Rec	Day I

eMaint Boot Camp Training

REPORT CREATION & DASHBOARD DESIGN

Agenda is subject to change.

Day 2

Day Z	
8:00am - 8:15am	Agenda Review
8:15am - 8:30am	Dashboard Overview Overview of all reports that will be created today.
8:30am - 9:00am	Reporting Tools Review This session will provide a quick review of all report features that have been used during this training: Group Band, Grouping Feature & Functions, Top X Feature, Date Range, Date Expressions and Graphs & Instruments. This session was designed to set the stage for the group activity coming up next.
9:00am - 9:45am	Group Activity In this activity the class will be separated into small groups, which will be given a list of reports to create. These reports will then be added to your dashboard.
9:45am - 10:00am	Break
10:00am - 10:30am	Review of Reports from Group Activity In this session the instructor will build all the reports that were assigned to the groups and will answer your questions.
10:30am - 11:30am	Calculated Fields on Reports This session will cover in detail the creation of calculated fields, that will allow you to display useful values in your reports.
11:30am - 12:00pm	Hands-On Training These exercises will provide you with a walk through on how to create useful reports with calculated fields.
12:00pm - 1:00pm	Lunch
1:00pm - 2:00pm	Advanced Graphs In this session you will learn how to create advanced graphs: Pareto, Two Column and Stacked.
2:00pm - 2:45pm	Hands-On Training In these exercises you will have the opportunity to build useful advanced graphs and display them on your dashboards.
2:45pm - 3:00pm	Break
3:00pm - 3:30pm	Reporting Trivia In this session, you will team up with other attendees to play a fun Trivia game about eMaint Reporting and other fun subjects.
3:30pm - 4:00pm	Ask the Expert In this session, other eMaint product specialists will be in the room to provide you with the opportunity to ask questions about specific reports you may want to have in your account.
